Flexaible and scalable future-proof solutions

An EFI Software Maintenance & Support Agreement (SMSA) included for the first year with your Fiery purchase, provides phone support and an ongoing stream of software releases, including the latest device drivers, plus all minor and major product upgrades.

The modular software architecture allows you to add options such as additional printer drivers, advanced color features and production functionalities to grow according to changing business needs. Contact EFI or your local reseller to purchase options listed below.

Color Profiler Option	Provides ICC-based tools for professional creation of ICC and device link profiles based on the renowned Fiery Color Profiler Suite.
Cut Server Option	Offers a comprehensive cutting solution that can drive more than 1,300 vinyl cutters and routing tables from industry-leading manufacturers.
Cut Marks Option	Completes and speeds up the production process by supporting all industry standard cutting and finishing marks and methods.
Color Verifier Option	Verifies the accuracy and repeatability of printouts through measuring and comparing color values against industry or in-house standards.
Ink Saving Option	Reduces ink consumption and ink cost while maintaining optimal image quality and color fidelity.
Printer Driver Options	Printer Options support a wide range of more than 800 inkjet printers from various printer vendors.
ES-3000	EFI's M0, M1, and M2 compliant single pass spectrophotometer for Fiery output calibration, profile creation, and optimization.

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalized documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity.
